PROFESSIONAL SUMMARY

Product-focused backend engineer and product manager with 3+ years building healthcare AI, cloud storage, and medical imaging integrations. I simplify complex clinical data into reliable APIs, ETL pipelines, and monitoring to improve operations.

SKILLS

Product Methodologies:
Roadmapping, PRD/User
Stories

Domain: Healthcare IT , HIS
/ LIS integration, Whole Slide
Image, Medical AI systems

Engineering: Python, Django /
DRF, PostgreSQL, REST API
design, Grafana , GitLab CI/CD

EMPLOYMENT HISTORY

Jan 2026 — Jun 2026

Product Manager, aetherAI

Taipei

- Designed a multi-tier clinical storage architecture for 5+ healthcare sites and integrated Azure cloud storage for long-term archival of pathology imaging data.
- Implemented DICOM / NEMA-compliant imaging integrations with de-identification protocols and delivered scanner vendor integration.
- Delivered 20+ APIs for HIS / LIS / PLIS integrations across 10+ hospital customers and led HL7 v2 integration for 5+ international clients.
- Reduced RBAC configuration complexity by 77% by cutting 3,000+ configurations to 700 using PCA and Hamming-distance clustering.
- Built GemKeeper, an internal document-versioning application used to manage 10+ product documents across software release cycles.
- Built Claude-based automation pipelines connected to ClickUp to generate PRDs and structure the product roadmap, reducing manual documentation time.
- Used AI-assisted prototyping to create interactive React mockups, accelerating UI / UX alignment across engineering and design.

Oct 2022 — Jan 2026

Backend Engineer, aetherAI

Taipei

- Led backend architecture for the HER2 IHC AI calibration subsystem that supported pathology AI quantification.
- Designed and shipped a three-stage web API for hospital HIS / LIS integrations.
- Owned integration and authentication architecture — LDAP, SSO, and CSRF hardening across 10+ hospital deployments.
- Built and maintained the slide auto-import and WSI ingestion pipeline for multi-site deployments.

EDUCATION

Sept 2020 — Jun 2022

Master of Public Health, National Yang Ming Chiao Tung University

Sept 2013 — Jun 2020

Bachelor of Science in Nursing, National Cheng Kung University

Tainan
